Description: The 538 is the top bike for the nobility younglings in the inner belt of the Empire (up to 2 jumps from Byzantium Secundus). The Fading Suns equivalent of Ducati Monstro 1000. Variants exist, like the Rk538 (150% autonomy) and the Rv538 (up to 130% max speed, a lot of security options). Those vehicles are powered with a 50*350x60 capacity fusion cell. Even if the pilot is not protected, those bikes have a lot of fail safe measures implemented (auto stabilize, defect landing)

Description: This weird seven parts nunchaku is the signature weapon of the Aeon Chapter. Each rod is magnetically linked to the other, and one needs to atone with the full set to be able to use it. If not, it's only a rod of seven parts. The black market value is low due to the lack of people able to use it as a weapon.
