Lifepaths

All characters are build in dP around an historical approach: each step gives the characters a certain number of attributes, skills and other points. A few of them are custom steps that allow customization.

The standard construction of a character is:

- One Birthright matching to her species (140pts)
- Upbringing (20pts or in two parts with 15 + 5 pts)
- Apprenticeship (25 pts)
- Early Career (48 pts)
- Some Tours of duty (20 pts each, a begining PC has two of them)
- Worldly Benefits (7 pts)
